ELANTRA Hybrid Limited in Ecotronic Gray

The smart money is on Elantra.

Our Elantra line of compact sedans takes style, safety, comfort and connectivity to the highest levels. How high? For starters, the Hyundai Elantra Hybrid was named a 2024 Best Car for the Money by *U.S. News & World Report*.¹

You'll see why in Elantra's parametric body surfaces, aggressive grille and striking alloy wheels. You'll also see it in the variety of trim levels to suit every taste, including an all-new SEL Sport trim – with a gasoline engine or hybrid powertrain – for those who seek an edgier style.

Look behind Elantra's LED headlights, and you'll find a choice of power sources. On Elantra SE, SEL Sport, SEL Convenience and Limited, a 2.0L gasoline engine balances robust performance and fuel efficiency. Elantra Hybrid uses a 1.6L engine and adds electric power to deliver up to an EPA-estimated 54 combined MPG.² A 1.6L turbo engine backs up Elantra N Line's motorsport-inspired style. Want the full Hyundai N

high-performance experience? Check out the turbocharged 276-hp Elantra N with its 6-speed manual or available N 8-speed Wet Dual Clutch Transmission.

Even before you step inside of your Elantra, smart technologies empower you. The MyHyundai with Bluelink app lets you unlock the doors and start the engine using your compatible smartphone or smartwatch.³ And easily share your available digital key with family or friends using Apple Wallet,⁴ Google Wallet⁵ or Samsung Pass⁶.

Once you're in the driver's seat, the Elantra experience gets even better. Apple CarPlay[®] and Android Auto[™] are standard,⁵ while Bluetooth[®] lets you connect two phones simultaneously – ideal for streaming your music playlists.⁶ Available ambient lighting sets the mood with a palette of 64 colors. And an available 10.25" touchscreen – the largest in its class⁷ – serves up a treasure trove of connected car features. So get ready to place your bet on the smart Hyundai Elantra.

¹All figures are EPA estimates and for comparison purposes only. Actual mileage may vary with options, driving conditions, driving habits and the vehicle's condition. ²Drive Modes vary by trim level.

ELANTRA Limited in Ultimate Red

LED projector headlights and LED Daytime Running Lights

Ergonomic steering wheel featuring haptic feedback

17" dark medium gray wheel

Journey more, pump less.

Like every Hyundai, we designed the 2025 Elantra to be the sort of companion you'd want – wherever your journey goes and whichever version you choose. Its intelligent engine and performance technologies ensure you'll enjoy the sort of reliable, fun and versatile partner that can turn each trip into a rewarding experience.

That starts with Elantra's SE, SEL Convenience, Limited and new SEL Sport trim levels – and their standard Smartstream 2.0L Atkinson Cycle engine paired with a Smartstream Intelligent Variable Transmission. Together, these advanced systems deliver smooth, sure power for comfortable cruising and confident passing. It's a highly efficient drivetrain that makes the most of its power while conserving fuel – the 2025 Elantra SE has an EPA-estimated rating of up to 41 MPG on the highway.¹

Once you are behind the wheel, you'll feel how fun Elantra is on the road – proving that it's possible to be both easy on gas and a blast to drive. Select Drive with the sporty gear shifter and grab hold of the steering wheel. Then let Elantra show you how well it can handle itself in a corner. You'll quickly sense the firm bond forged between you, your Elantra and the pavement.

With a feature called Drive Mode Select, you can choose how your Elantra's dynamics match your preferred style of driving. In any mode – Eco, Sport, Smart or Normal² – Elantra moves with quiet confidence thanks to seals on each door's glass being tighter and more secure, which helps keep high-frequency noise from disturbing the peace of your passenger cabin. After all, you deal with enough noise out there in the real world, right?

ELANTRA Limited LED combination taillights

Elantra N Line and Elantra Hybrid: Variations on the theme of performance.

At Hyundai, we know that the word performance can mean different things to different drivers. To some, it defines the kind of responsive power and handling reflexes that makes driving exhilarating. To others, performance means efficiency and the use of electric motors to reduce emissions. No matter how you define it, the 2025 Elantra lineup offers models to match your definition.

For drivers seeking a boost in power, there's Elantra N Line. It sports a turbocharged 201-hp engine lurking under the hood, matched by dual chrome exhaust tips tucked under the rear bumper. Controlling all of that power is a 7-speed Dual Clutch Transmission with paddle shifters.

With each turn of the steering wheel, you will feel the firm grip of Elantra N Line's performance tires on redesigned 18" alloy wheels. As you start to carve corners, you'll sense the stabilizing effects of its sport-tuned suspension.

ELANTRA Hybrid Limited in Ecotronic Gray

For those wanting electric power to lessen their carbon footprint, we offer Elantra Hybrid in Blue, Limited and SEL Sport trims. Their advanced powertrain features a 1.6L GDI engine, 32 kW electric motor and 6-speed EcoShift Dual Clutch Transmission that combine for 139 hp, 195 lb-ft of torque and segment-leading fuel economy¹ topped by Elantra Hybrid Blue's EPA-estimated 54 combined MPG.²

Both Elantra N Line and Elantra Hybrid feature a multi-link rear suspension for confident cornering. And both come equipped with braking systems that enhance stopping power. So whether you press the pedal on the right, or the pedal on the left, the performance is impressive.

N Line: Leather-wrapped sport steering wheel and shift knob

N Line: LED taillights and dual chrome-tipped exhaust outlet

N Line: Synthetic leather/cloth combination sport seats

ELANTRA N Line in Amazon Gray

¹Only use N Launch Control feature on a closed racetrack and with extreme caution. Never use N Launch Control on public roads. See Owner's Manual for further details and limitations. ²N Grin Shift feature only available when configured with 8-speed Dual Clutch Transmission. Always use extreme caution when using the N Grin Shift feature. The driver is responsible for being attentive and maintaining control of the vehicle at all times. See Owner's Manual for further details and limitations. ³Always use extreme caution when using the N Corner Carving Differential (e-LSD) feature. The driver is responsible for being attentive and maintaining control of the vehicle at all times. See Owner's Manual for further details and limitations.

ELANTRA N in Performance Blue

Elantra N: Our sports sedan with the sharpest edge.

‘N’ is how Hyundai says performance in a single letter. N is for Namyang, our global R&D facility. It’s also for Nürburgring, the legendary circuit in Germany where the bar is set for world-class performance. At both sites, an elite corps of Hyundai engineers test technology developed for our global rally and road racing programs, then apply it to street-legal machines like Elantra N.

For 2025, Elantra N has a look that grabs attention from the get-go with a bold grille, N-specific red trim and larger air intakes up front. At the back, there’s a dual exhaust, an aero-tuned rear diffuser and a rear wing spoiler. The stance is equally aggressive, with forged 19” wheels and MICHELIN® Pilot Sport 4S tires.

Beneath the skin, Elantra N’s suspension is stiffer. Its steering ratio is quicker. And its brakes are beefier. A “Flat Power” 2.0L Turbo engine delivers 276 horsepower and 289 lb-ft of torque. Armed with Launch Control¹ and an available 8-speed Wet Dual Clutch Transmission with N Power Shift, you’ll sprint from 0-60 mph in about 5 seconds on the racetrack. Press that red button on the steering wheel, and you trigger an N Grin Shift overboost that adds 10 horsepower for 20 seconds.² A full-on N performance setting and two custom drive modes are accessed via the blue steering wheel buttons.

Cornering precision comes from Elantra N’s electronic limited-slip N Corner Carving Differential and an Integrated Drive Axle that helps handle extreme lateral g-forces.³ A second-generation Electronically Controlled Suspension allows our widest range of suspension settings ever. Tune it for extreme track situations. Or for that next road trip.

Never just drive 

19” forged wheels and 14.2” front brake rotors

N Power Shift and N Grin Shift

Electronically Controlled Suspension and N Corner Carving Differential

Dual 10.25” LCD screens and N Light Sport Bucket Seats

SmartSense is safety at its most intelligent.

With all of the advanced safety systems it carries onboard, Elantra is on guard every time you get in, fasten your seatbelt and head out on the road. Hyundai SmartSense, our suite of innovative driver alert and assist technologies, offers 360 degrees of protection – constantly scanning for potential hazards at the front, rear and sides of your Elantra.¹

Elantra’s long list of standard safety features includes the use of available haptic feedback – that pulsing vibration in the steering wheel² – that alerts the driver whenever Lane Keeping Assist,³ Blind-Spot Collision Warning⁴ or Rear Cross-Traffic Collision-Avoidance Assist⁵ are triggered. Also standard: Rear side airbags on every trim level.

Hyundai SmartSense Technologies

1. Forward Collision-Avoidance Assist

When the front-facing camera or available radar detects a vehicle or pedestrian in your path, or oncoming cars when turning left in an intersection, your Elantra warns you of a potential collision. If necessary, the system may automatically apply emergency braking to help avoid a collision.⁸

2. Blind-Spot Collision Warning

If your Elantra detects a vehicle in your blind spot while the turn signal is on, it issues an alert before you change lanes to help avoid a collision. It also monitors for vehicles approaching from behind to help prevent collisions when you are exiting a parallel parking spot.

3. Rear Cross-Traffic Collision-Avoidance Assist

Backing out of a parking space and wondering whether there's cross traffic coming your way? This feature warns you if another vehicle is detected to be approaching from the side. If necessary, your Elantra may automatically apply braking to help prevent a collision.

4. Lane Following Assist

Using the front-facing camera to detect lane markers on the road, this feature assists the Elantra driver's steering to help keep the vehicle centered in its lane. Elantra can also determine a virtual path to help keep you positioned in your driving lane based on the movements of the vehicle in front of you.⁹

5. Highway Driving Assist

This available feature helps keep you centered in your lane while also maintaining a set speed and distance from the vehicle in front. It uses Elantra's navigation map data to automatically adjust for changing speed limits and reduces your speed when it detects you're approaching a curve in the road.¹¹

6. Safe Exit Warning

After parking your Elantra, a Safe Exit Warning feature issues an alert when a vehicle is detected to be approaching from behind, letting the driver know it may not be safe for passengers to open their street-side door.¹²

Overall 5-Star Safety Rating
2024 Hyundai ELANTRA⁷

¹Safety features vary by model and trim level. For details, refer to the Features chart in this brochure or visit HyundaiUSA.com. ²Haptic feedback not equipped on Elantra N and N Line. ³Lane Keeping Assist operates only when the lane markings are clearly visible on the road. It will not work under all circumstances and will not prevent loss of control. It is a supplemental assist and does not replace the need for extreme care and attention by the driver. It uses a camera in the upper windshield area, so it is imperative this area be free of blockage such as stickers, dirt, snow, tinting material, markings and labels. Avoid putting objects on the dashboard that may reflect light or images onto the system camera area. See Owner's Manual for details and limitations. ⁴Blind-Spot Collision Warning (BCW) assists the driver by warning of other vehicles in the blind-spot region. There are limitations to the function, range, detection and clarity of the system. It will not detect all vehicles or objects in the blind spot. Its operation depends on the size, distance, angle and relative speed difference between your car and other vehicles. BCW may not operate if sensors are obscured in any way. BCW is a supplemental system, and the driver must still be attentive and exercise caution when driving. It is the driver's responsibility to be aware of the surroundings and ensure it is clear before changing lanes or directions. See Owner's Manual for details and limitations. ⁵Rear Cross-Traffic Collision-Avoidance Assist (RCCA) is designed to notify drivers of approaching cross traffic behind their vehicle. When another vehicle is detected while you are backing out of a parking spot, it provides audible and visual display warnings and applies braking if it senses a collision is imminent. RCCA is active when the vehicle is in reverse gear and backing at a speed less than 6 mph. It only engages during the first activation of reverse gear from park and may not detect all vehicles, depending on the size, angle, distance and speed of the other vehicle. Never rely exclusively on RCCA. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection, range and clarity of the system. See Owner's Manual for details and limitations. ⁶To qualify for 2024 TOP SAFETY PICK, a vehicle must earn good ratings in the small overlap front, original moderate overlap front and updated side tests. It also must earn an acceptable or good rating for pedestrian front crash prevention and come with standard acceptable- or good-rated

headlights. For details, visit www.iihs.org. ⁷Overall 5-Star Safety Rating applies to 2024 non-hybrid Elantra models. Government 5-Star Safety ratings are part of the National Highway Traffic Safety Administration's (NHTSA) New Car Assessment Program (nhtsa.gov). ⁸Forward Collision-Avoidance Assist with Junction Turning is intended to be a supplement to safe driving practices. The system is not designed to detect certain stationary objects such as trees or poles, and may not detect all vehicles, pedestrians or cyclists under certain conditions. The system's available Junction Turning function operates when the vehicle's left turn signal is activated, your vehicle is traveling between approximately 6-19 mph, and the oncoming vehicle's speed is between approximately 19-44 mph. The system is a driver assistance system and is not a substitute for safe driving. The driver is responsible for being attentive and maintaining control of the vehicle, and should not wait for alerts before braking as there may not be sufficient time to brake safely. See Owner's Manual for details and limitations. ⁹Lane Following Assist (LFA), when actively engaged with Smart Cruise Control or Highway Driving Assist, helps keep your vehicle centered in its lane when the lane markings are clearly visible on the road. LFA will not work under all circumstances and will not prevent loss of control. LFA is a supplemental assist, and does not replace the need for extreme care and attention by the driver. See Owner's Manual for details and limitations. ¹⁰Consecutive IIHS TOP SAFETY PICK citation applies to non-hybrid Elantra models only. ¹¹Highway Driving Assist (HDA) is for highway use only and can help maintain a safe distance from the vehicle ahead while keeping your vehicle centered in its lane when lane markings are clearly visible on the road. HDA should not be used in poor weather, heavy or varying traffic, or on winding or slippery roads. HDA will not work under all circumstances and will not prevent loss of control. Driver remains responsible to slow or stop the vehicle to avoid a collision. See Owner's Manual for details and limitations. ¹²When the vehicle is parked, Safe Exit Warning (SEW) can alert occupants planning to exit the vehicle when another vehicle is approaching from behind. SEW does not work in all situations and is not a substitute for driver or passenger attentiveness. Always be aware of your surroundings and attentive of approaching vehicles. See Owner's Manual for details and limitations.

ELANTRA Limited in Black H-Tex™ trimmed seats

Advancing the art of comfort.

Inside, the 2025 Elantra is full of innovative ideas on design, technology and convenience. The dash is low and wide, wrapping around the driver and available with the segment's first fully digital 10.25" LCD instrument cluster and largest 10.25" navigation/infotainment screen.¹ Integrated under a single cover of glass, the screen tilts toward the driver for improved visibility.

Now check out the back seat. That's best-in-class rear-seat legroom¹ with available 60/40 split-folding rear seats. But how comfortable you are is about more than room. It's about whether what is inside actually makes life easier. With Elantra's available Dynamic Voice Recognition, for example, you simply use your conversational voice to adjust climate controls, select SiriusXM® channels and more.²

Need to power your devices? Dual front and rear USB ports are standard. And there is Elantra's available next-gen wireless phone charger, with a charging light indicator and a separator rail to keep your phone securely in place.³ There's even a cooling function that helps prevent your phone from overheating while charging.

To keep you and your crew at the right temperature, you can pre-warm or pre-cool the cabin using your MyHyundai with Bluelink app.⁴ And you can set the air conditioning's auto mode at any of three levels of airflow for your preferred intensity.⁵ Other available features ready to perform: A Wi-Fi hotspot,⁶ a power sunroof and an 8-speaker Bose® premium audio system.

ELANTRA Limited in Ultimate Red

Introducing Bluelink+: No fees. No trial. No worries.

With the introduction of Bluelink+, Hyundai becomes the first automotive brand to offer its suite of connected car features to new car purchasers at no extra cost. Bluelink+ is available as a complimentary feature with the purchase of your new 2025 Elantra.¹

Bluelink features technologies that help keep you safe – from automatic collision notifications and automatic emergency assistance if your airbags deploy to enhanced roadside assistance that sends your exact location to a roadside assistance associate.² Bluelink also includes helpful maintenance features like remote diagnostics and monthly vehicle health reports. All complimentary for the life of the supporting wireless network technology.³

Your MyHyundai with Bluelink app turns your compatible smartphone, smartwatch or smart home assistant device into a Bluelink remote control that can unlock your Elantra’s doors and start the engine and climate controls before you walk out the door.⁴

And check this out – starting your Elantra remotely, or with the available Digital Key 2 Touch, restores your radio and navigation system presets using your Bluelink personal profile.⁵ Apple Wallet®, Google Wallet® and Samsung Pass® let you share your digital key with trusted friends and family members⁶ – as the primary driver, you can control when a shared key can be used, and pause or end shared-key access at any time.

Digital Key 2 Touch

Automatic Emergency Assistance

Bluelink Connected Care offers 24/7 SOS Emergency Assistance as well as Automatic Collision Notification that calls for help if you’re in an accident where your vehicle’s airbags deploy.

Destination Send-to-Car

Use your smartphone to find restaurants or points of interest, then send the destination to your Elantra’s available navigation system for driving directions before you slip behind the wheel.

Remote Vehicle Status

Wondering how much fuel is in your car’s tank? If your Elantra’s trunk is closed or the doors are unlocked? Your MyHyundai with Bluelink app knows the answers to these questions and more.

On-Demand Diagnostics

Run vehicle diagnostics from your MyHyundai with Bluelink mobile app, report issues at the press of a button and receive maintenance reminders or monthly vehicle health reports by email.

Remote Vehicle Controls

Use your smartphone, virtual assistant or wearable device to remotely start your Elantra’s engine, unlock the doors, set the cabin temperature and more.

Bluelink Car Finder

Our Bluelink Car Finder feature helps you navigate crowded city streets and parking lot mazes when finding your way back to your Elantra.

¹Not available on Elantra SE, SEL Sport (non-hybrid) and Elantra Hybrid Blue. Bluelink+ is available to purchasers and lessees of new 2025 and newer Bluelink-equipped Hyundai models. Bluelink+ requires an active Bluelink subscription agreement subject to the Connected Services Terms and Conditions. Only use Bluelink features and corresponding devices when safe to do so. Cellular and GPS coverage is required. Features, specifications and fees are subject to change. ²Bluelink agents will contact existing emergency service responders. ³Bluelink services rely on digital wireless telecommunications technology outside of Hyundai’s control. Bluelink is dependent on 4G LTE cellular networks controlled and maintained by third-party wireless carriers. If and when these networks change and/or discontinue service, or the underlying technology required to support Bluelink becomes obsolete, then the connected services will not work, and Hyundai will be forced to cancel impacted subscription services. ⁴Requires active Bluelink Advanced subscription (complimentary for the original owner). Remote climate control available on properly equipped models with fully automatic temperature control. Remote stop only available when in remote start mode. ⁵Near Field Communication (NFC) digital key requires a compatible iPhone®, Apple Watch®, Google Pixel® or Samsung Galaxy® phone. Not all Android, Apple or Samsung devices are compatible. Digital key sharing requires an active Bluelink Advanced subscription (complimentary for the original owner). See your Owner’s Manual for details and limitations. ⁶Apple® is a registered trademark of Apple Inc. Samsung® is a registered trademark of Samsung Electronics Inc. Hyundai Hope On Wheels®

Helping Kids Fight Cancer Since 1998

Hope comes standard on every Hyundai.

Each time we sell a Hyundai, a portion goes to Hyundai Hope On Wheels® to help find a cure for childhood cancer. Over the last 26 years, Hyundai Hope On Wheels has donated \$250 million to pediatric cancer research. Hope is our greatest feature. And it comes standard on every Hyundai. For more information, please visit HyundaiHopeOnWheels.org.

Hyundai Complimentary Maintenance

COMPLIMENTARY MAINTENANCE INCLUDES FOUR (4) BASIC MAINTENANCE SERVICE VISITS THAT MUST BE USED IN THE FIRST 3 YEARS OR 36,000 MILES, WHICHEVER COMES FIRST. Basic maintenance includes Hyundai-approved oil and oil filter change (except for electric vehicles and fuel cell electric vehicles), multi-point inspection plus tire rotation. Driving at normal factory-scheduled maintenance intervals would cover four services for the first 3 years or 36,000 miles. Any additional services and parts are excluded. Offer valid only for original owners of new 2025 model year Hyundai vehicles. See your Hyundai dealer for details and limitations.

Owner Assurance

Our commitment to Hyundai owners does not end with the transfer of keys. Wherever the road takes you, we have got your back with Hyundai Owner Assurance, an umbrella of services and benefits that includes America's Best Warranty, 24/7 Roadside Assistance, innovative safety and car care features...and more.

America's Best Warranty claim based on total package of warranty programs. See dealer for LIMITED WARRANTY details. See your Hyundai dealer and HyundaiUSA.com/Assurance for details and limitations. While the information contained in this brochure is based on the latest information available at the time of printing, specifications and equipment can change. Feature comparisons are based on competitor information available at the time of printing. Although the information contained in this brochure is believed to be correct, accuracy cannot be guaranteed. No warranty or guarantee is being extended in this brochure, and Hyundai reserves the right to change product specifications and equipment at any time, without notice, without incurring obligations. Some vehicles are shown with optional equipment. Specifications apply to U.S. vehicles only. Please contact your Hyundai dealer or visit HyundaiUSA.com for current vehicle specifications or details on any of the programs or services listed here. As part of Hyundai's commitment to a responsible environment, this brochure was printed using paper certified by the Forest Stewardship Council®. FSC® certification helps ensure that the highest social and environmental standards are met in the making of the paper we use, contributing to conservation, responsible management and community-level benefits for people near the forests.
